

# How convert SSH Keys to PPK Format?

## Converting SSH Keys to PPK Format

1. [Download PuTTY Key Generator](#)
2. Open the program and click on *Conversion* in top menu. Then choose *Import key*.

3. Locate your key in your computer and click open.
4. Once the key is loaded, you can save it as PPK file by clicking on **Save Private Key** or on **Save Public Key** if you want public version of your key.
