

Entity Management - User Role

- User Role
 - SaaS Service User List
 - Server/Application User List (LDAP authentication)

User Role

Project admin user can change user role using Role switches (User, Administration role).

SaaS Service User List

SaaS Service User List includes list of all current project users including his **First Name, Last Name, Username, Email** (when enabled in user's profile) and his **SaaS last login information**.

There is shown Total user count in SaaS Service on top of the list.

It's possible to sort user list ascending or descending using Username, First Name or Last Name.

The screenshot shows the 'rc6testcreateentity' SaaS service user list. The interface includes a sidebar with navigation options like Dashboard, SAAS, Servers, Applications, Detail, Resources, Usage, Logs, Network, Storage, Users, and Billing. The main content area displays a list of users with the following details:

Username	First Name	Last Name	Email	SaaS last login	Users	Administrators	Remove
8063321846280788736anonym			8063321846280788736anonym	8063321846280788736@anonym.anonym	<input checked="" type="checkbox"/>	<input type="checkbox"/>	REMOVE
Jiri Bačovský	Jiri	Bačovský	bacovjir@tieto.com	Jiri Bačovský@tieto.com	<input checked="" type="checkbox"/>	<input checked="" type="checkbox"/>	REMOVE
Jiri Billig	Jiri	Billig	billijr@tieto.com	Jiri Billig@tieto.com	<input checked="" type="checkbox"/>	<input type="checkbox"/>	REMOVE
Buck Bunny	Bunny	Borgínek	borginek@gmail.com		<input checked="" type="checkbox"/>	<input type="checkbox"/>	REMOVE
Martin Duží	Martin	Duží	duzimar@tieto.com		<input checked="" type="checkbox"/>	<input type="checkbox"/>	REMOVE

REMOVE	Project admin can remove a user from the SaaS Service User List.
+ Button	User can add another user to SaaS Service (Level3).

Server/Application User List (LDAP authentication)

tieto DevOps Space stage SprintTestTenant

CentOS
c7ldap.sprinttesttenant.stage.tdsdev.tieto.com (running - installed)

DETAIL CONNECTIONS APPLICATIONS **USERS** LOGS USAGE BACKUPS SETTINGS

SAAS SERVERS APPLICATIONS

DETAIL RESOURCES USAGE LOGS NETWORK STORAGE **USERS** BILLING

This server use LDAP based authentication. All users added to the project will get access automatically.

Filter users by typing (username, first name, last name) Ordering

Total user count: 21

	Jiří Bačovský ^{PSH} bacovjir jiri.bacovsky@tieto.com SaaS last login:	<input type="checkbox"/>	admin
	Jiří Billig billijir jiri.billig@tieto.com SaaS last login:	<input type="checkbox"/>	
	Buck Bunny bunny borginek@gmail.com SaaS last login:	<input type="checkbox"/>	
	Martin Duží ^{PSH} duzimir martin.duzi@tieto.com SaaS last login:	<input type="checkbox"/>	
	Kristýna Gabrielová ^{PSH} gabrikri kristyna.gabrielova@tieto.com SaaS last login:	<input type="checkbox"/>	

List of all current project users including:

- First Name
- Last Name
- Username
- Email (when enabled in the user's profile)
- SaaS last login information

Total user count is shown in Server on top of the list.

Sorting option by:

- Username, First Name or Last Name
- Using role switches (only one role can be selected)

User role can be granted or removed using Role switches (Admin role) by Project Admin user.

All Project users have access to Project LDAP Servers and Application by default including Project Service Account.

All Project users including Project Service Account are added to Project LDAP group, so it's not possible to remove a user from an LDAP Server only.

Removing a User from Project means the removal of a user from Project LDAP group and removal of the user from all Project LDAP Servers.
