

# Entity Management - User Role

- User Role
  - SaaS Service User List
  - Server/Application User List (LDAP authentication)

## User Role

Project admin user can change user role using Role switches (User, Administration role).

### SaaS Service User List

SaaS Service User List includes list of all current project users including his **First Name, Last Name, Username, Email** (when enabled in user's profile) and his **SaaS last login information**.

There is shown Total user count in SaaS Service on top of the list.

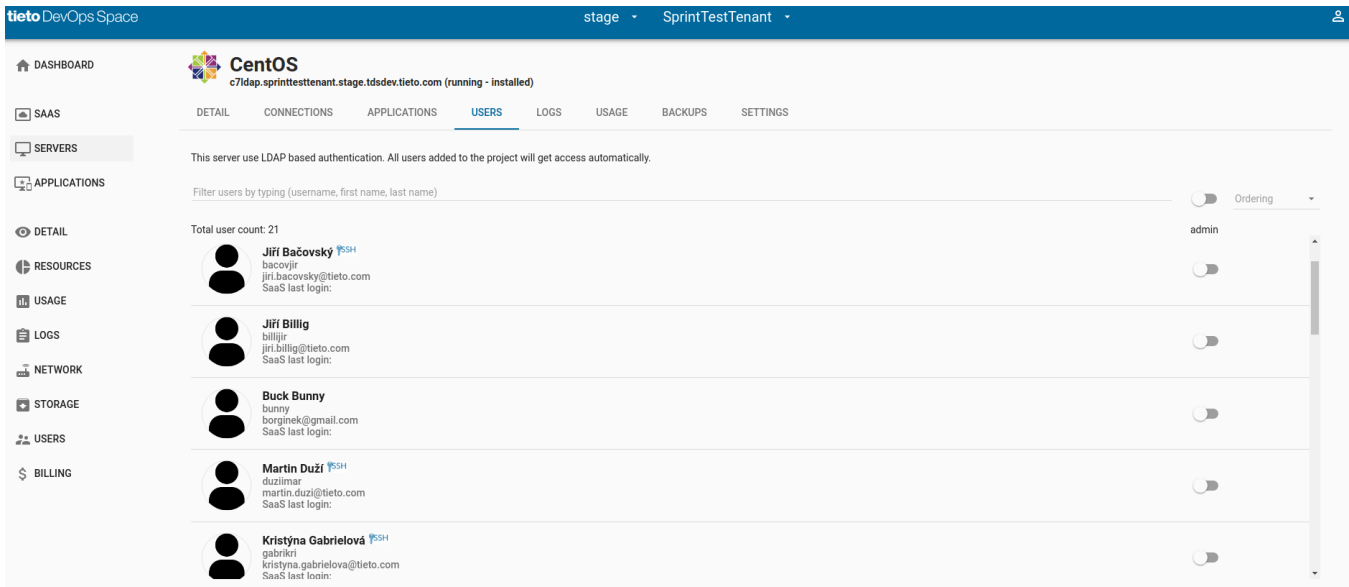

It's possible to sort user list ascending or descending using Username, First Name or Last Name.

The screenshot shows the 'rc6testcreateentity' SaaS service user list. The interface includes a sidebar with navigation options like DASHBOARD, SAAS, SERVERS, APPLICATIONS, DETAIL, RESOURCES, USAGE, LOGS, NETWORK, STORAGE, USERS, and BILLING. The main content area displays a list of users with the following details:

Username	First Name	Last Name	Email	SaaS last login	Users	Administrators	REMOVE
8063321846280788736anonym					<input checked="" type="checkbox"/>	<input type="checkbox"/>	REMOVE
8063321846280788736anonym					<input checked="" type="checkbox"/>	<input type="checkbox"/>	REMOVE
Jiri Bačovský	Jiri	Bačovský	jiri.bacovsky@tieto.com		<input checked="" type="checkbox"/>	<input checked="" type="checkbox"/>	REMOVE
Jiri Billig	Jiri	Billig	jiri.billig@tieto.com		<input checked="" type="checkbox"/>	<input type="checkbox"/>	REMOVE
Buck Bunny	Bunny	Borginek	borginek@gmail.com		<input checked="" type="checkbox"/>	<input type="checkbox"/>	REMOVE
Martin Duží	Martin	Duží	martin.duzi@tieto.com		<input checked="" type="checkbox"/>	<input type="checkbox"/>	REMOVE

<b>REMOVE</b>	Project admin can remove a user from the SaaS Service User List.
<b>+ Button</b>	User can add another user to SaaS Service (Level3).

### Server/Application User List (LDAP authentication)

List of all current project users including:

- First Name
- Last Name
- Username
- Email (when enabled in the user's profile)
- SaaS last login information

Total user count is shown in Server on top of the list.

Sorting option by:

- Username, First Name or Last Name
- Using role switches (only one role can be selected)

User role can be granted or removed using Role switches (Admin role) by Project Admin user.

All Project users have access to Project LDAP Servers and Application by default including Project Service Account.

All Project users including Project Service Account are added to Project LDAP group, so it's not possible to remove a user from an LDAP Server only.

Removing a User from Project means the removal of a user from Project LDAP group and removal of the user from all Project LDAP Servers.
