# How to request a new app

✅ If you have found a new feature app, that would solve your problems or your organisations need, you can create a support tickets to get this installed and tested before purchasing it for your Jira/Confluence or other Atlassian application.

Step-by-step guide

1. Go to https://jira.tds.tieto.com/servicedesk/customer/portal/11
2. Choose **Improvement** and then **Request a new app**

3. Enter all information

Help Center / TDS Consultancy

Request for a new App

Raise this request on behalf of

Jenny Hagström

Summary

Please install Scriptrunner for Jira

App URL

demo@tietoevry.com

Describe your need for a new feature

Hi,

We would like to test out Scriptrunner for Jira to be able to create our own scripts in Jira.

BR
Olle

Describe your use cases, what you need the new app for

Priority (optional)
