

# Tietoevry DevOps Space Home

## Welcome to Tietoevry DevOps Space page!

Tietoevry DevOps Space is a Project and Team centric self-service for DevOps tooling containing general Project as well as Development, Test, Continuous Integration, Continuous Delivery and Continuous Deployment tools and environments.

Tools and environments are delivered as SaaS or PaaS/IaaS with consumption-based pricing. SaaS environments are managed and supported by TDS operations team while PaaS /IaaS services are user self-managed.
